GIULIA

Friuli Venezia Giulia, the ideal place to boost your business.

The first Italian region classified as a Strong Innovator by the European Commission, Friuli Venezia Giulia boasts an excellent and dynamic R&D ecosystem that places it at the forefront of innovation. With its network of tech companies, scientific hubs, universities, research labs and incubators, it is the ideal environment to develop your innovative projects. Furthermore, its strategic location makes the region a logistics hub to expand across Europe and beyond.

Whether you are building the next AI, working on quantum computing or developing new technologies, Friuli Venezia Giulia is the place to be.

Select Friuli Venezia Giulia Agency

As the official investment promotion agency of the Friuli Venezia Giulia Autonomous Region, we support companies and investors throughout every stage of their projects. Our team assists you in choosing the right location, establishing your presence in the region and accessing funding opportunities, while facilitating connections, sourcing the best local talent for your business and providing comprehensive aftercare services.

Companies

AI4IV srl

AI4IV is a deep tech startup redefining machine vision for Physical AI. Its bio-inspired FlyEye sensors capture clear, artifact-free images in real time, even under extreme lighting and glare where conventional cameras fail. The technology enables reliable AI perception for robotics, autonomous systems, smart infrastructure, and industrial automation, unlocking safer and more accurate real-world AI applications.

ai4iv.com

Infostar Srl

Infostar is a system integrator specialized in delivering and integrating IT and digital solutions designed to improve efficiency and the quality of daily work for companies. Strongly focused on digital innovation, from systems to processes, we also apply AI to accelerate, automate, and simplify business operations. We offer reliable, secure, high-performance solutions backed by a highly skilled team trusted by hundreds of clients.

infostargroup.com

Neiko srl

Neiko is a CreaTech Agency that combines technology, design and strategic vision to create bespoke digital experiences that engage and generate value.

We support brands and companies seeking to innovate through their visual communication, guiding them on a journey of digital transformation that blends creativity, practicality and a focus on people.

neiko.it

Simtech Srl

Simtech is an innovative company specialized in advanced 3D crossmedial solutions, based in Udine (Italy) since 2018. The studio stands out in the Edugame sector, transforming education and training into immersive digital experiences. Its flagship solution is Vesta3DManager, a powerful 3D-AR product configurator designed to streamline sales and industrial customization, bridging the gap between complex engineering and engaging user interfaces.

smth.it

T&B Associati Srl

T&B Associati empowers businesses through digitalization and AI integration, turning technological potential into strategic assets. As leaders in European and cross-border project design, we provide tailored subsidized finance consultancy to maximize international competitiveness, transforming corporate innovation into economic value. Our multidisciplinary approach ensures profitable sustainable growth.
